

Come meet us at Pensions Age Autumn Conference

19 Sep 2024

This one-day conference, hosted at the Waldorf Hilton in London, is open to trustees, pension scheme managers, FDs, advisers, pension and HR professionals. The day offers delegates up-to-date knowledge and guidance they need to help them run their pension schemes and meet their members' needs, whether in the DB, DC or hybrid space at one of the most intriguing times in UK pensions history. Join Sue Doughty and Stephen Blakesley for their fireside chat at 12:35 – 1:00pm where they'll be discussing **Administration analytics: how to make data insights work for your members**.

As the UK's largest private sector pensions administrators, Aptia generates data that enables valuable insights into members' behaviour and experience. Sue and Stephen will look at some of Aptia's key analytics - and how they can be applied to strengthen engagement with your scheme members and policyholders.

As well as presenting, we'll be in attendance throughout the conference so please come and talk to us on our stand.
